

# Who is 4C Digital Health?

4C was formed by respected leaders and experts in healthcare, benefits, technology, and government to focus on addressing an ineffective healthcare payment ecosystem. Providing actionable solutions for self-funded plans, 4C offers independent oversight of healthcare expenditures using powerful analytical tools that employers need to gain control of their plans. We consistently deliver industry-defining technology and world-class service in our quest to empower our clients. We answer **“what’s in your healthcare data?”**

4C gives your company the clarity and the control to both understand your data and efficiently manage investments moving forward.

**Claim your data.  
Unleash the value.**

## Questions Facing Self-Insured Companies:

- » How much are avoidable episodes of care costing you today?
- » How is your plan performing against other large plans?
- » Are you achieving maximum accountability from your TPA?
- » What could you be doing to deliver greater value to employees and shareholders?
- » Do you have full transparency to your healthcare data?
